

Moorbrook School

Main Entrance

Welcome. You must wait here until you are let in. Only 1 person at a time in reception. Please try to ring before visiting. We must maintain social distancing and limit the people who come into school. This is to reduce the chance of infection.

Main Entrance

Only one person at a time in reception This is to maintain social distancing and reduce the chance of infection.

Pupil Entrance

Please queue up and wait. Make sure you are 2 metres apart from anyone else. This is to maintain social distancing and reduce the chance of infection.

Pupil Entrance

Staff wearing PPE will take your temperature before you enter the building. If your temperature is above 37.8c you will be isolated as you may have an infection. You will be sent home to keep everyone safe. You will be able to get a test to see if you have the infection.

You will be asked to use hand sanitiser. This is because clean hands is the best way to stop the infection passing from one person to another.

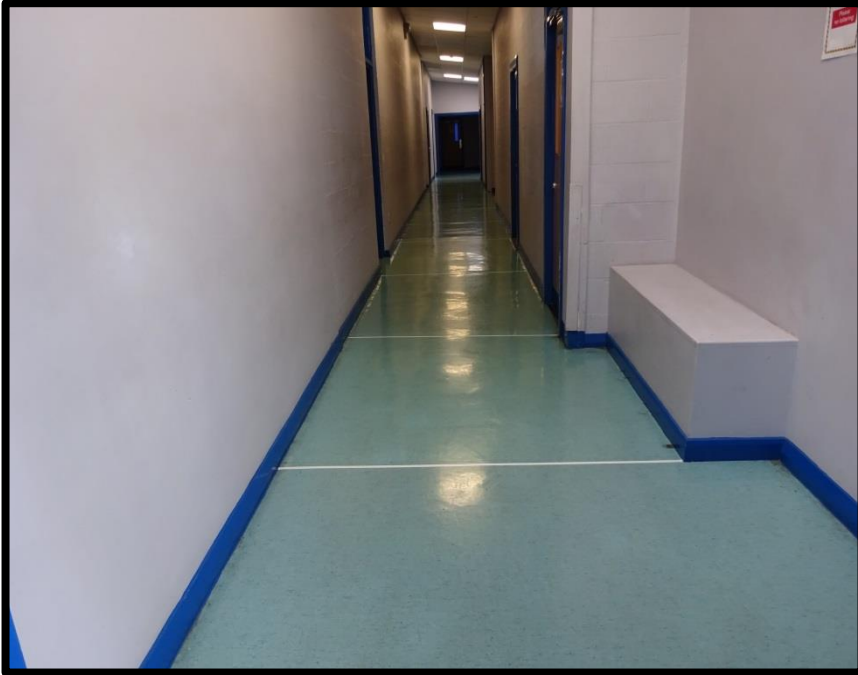

Link Corridor

Make sure you stay 2 metres apart. (see lines) This will mean we are all social distancing and it will help keep us all as safe as possible.
Go straight to your allocated classroom.

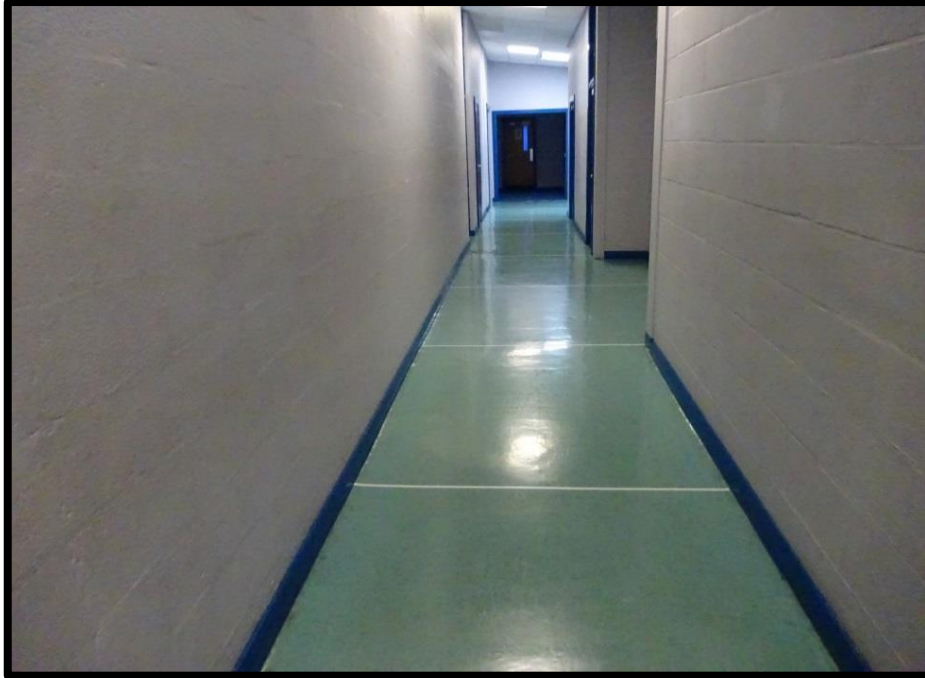

Corridor

Only 1 person can walk down the corridor at once because our corridor is not 2 meters wide, which means we cannot social distance. If someone is walking down the corridor then you should wait at the end. You can go down the corridor when they have finished. This is to keep us as safe as possible.

Corridor

The library is being used as a store room as it has desks and chairs from other classrooms in it. You can not go in the library until all the furniture has been moved back into the other rooms. We don't know when this will be.

Classrooms

When you get to a classroom you need to line up outside. Please knock on the door so that the people inside can move away from the door to maintain social distancing. Doors will be left open so you don't need to touch the handles and rooms are well ventilated. This will keep us all safe.

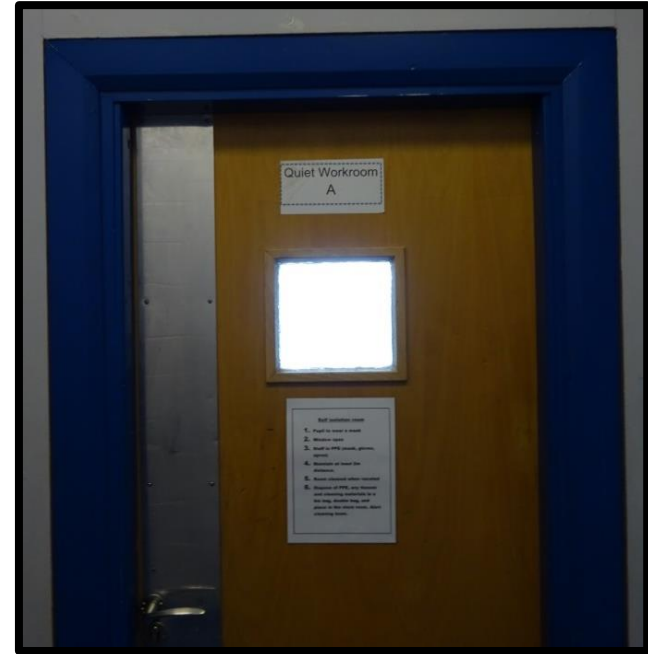

Toilets

Only one person in the toilets. These will be cleaned regularly. This is to stop the spread of infection and keep you safe.

Isolation Room

If you become unwell in school you will have to sit in the isolation room until we can safely get you home. You will wear a mask so that the staff are safe. The staff will wear a mask, gloves and a plastic apron so they are safe from any infection.

English 1

You will be given a desk to sit at and you **MUST** stay there. This is so we don't spread any infection around. You must only use your desk and equipment, do not share. Everything is being cleaned at least 3 times a day to keep us as safe as possible.

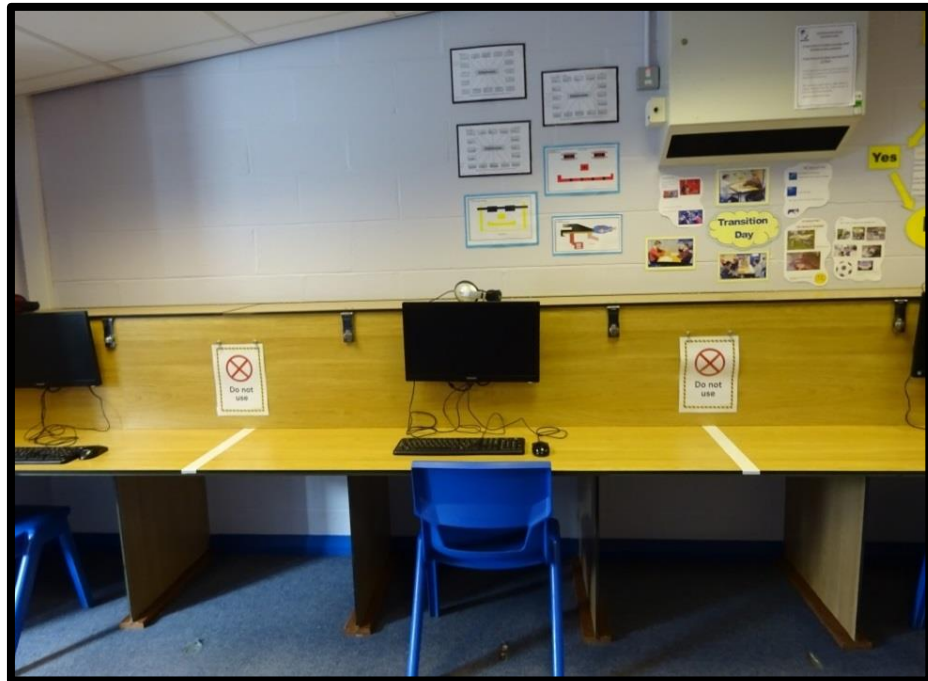

English 2

You MUST observe distancing within the white lines. The white lines show you where 2 meters is. This social distancing keeps us safe.

Computing

Some computers have been removed to keep social distancing spaces to keep us safe.

Maths

5 people can work in here, 2 metres apart, to keep us safe.

Dining room

Only 1 person to sit at half a table. Dinner will be brought to your table, no pupils are to go to the serving hatch. This is to reduce the spread of infection and to keep us safe. All pupils must leave the dining room at the same time. The tables and chairs will be cleaned after use.

Everything we do is to maintain social
distancing
(2 metres between people),
reduce the spread of infection and keep
us as safe as possible.

Thank you for following
the new rules.
