Appendix 2: acceptable use agreement (staff, governors, volunteers and visitors)	13
Appendix 3: online safety training needs – self-audit for staff	14
Appendix 4: online safety incident report log	15

1. Aims

Our school aims to:

Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors

Identify and support groups of pupils that are potentially at greater risk of harm online than others

Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as 'mobile phones')

Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

Content – being exposed to illegal, inappropriate or harmful content, such as pornography, misinformation, disinformation (including fake news), conspiracy theories, racism, misogyny, self-harm, suicide, antisemitism, radicalisation and extremism

Contact – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit the user for sexual, criminal, financial or other purposes

Conduct – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and

Commerce – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

2. Legislation and guidance

This policy is based on the Department for Education's (DfE's) statutory safeguarding guidance, [Keeping Children Safe in Education](#), and its advice for schools on:

[Teaching online safety in schools](#)

[Preventing and tackling bullying](#) and [cyber-bullying: advice for headteachers and school staff](#)

[Relationships and sex education \(RSE\) and health education](#)

[Searching, screening and confiscation](#)

It also refers to the DfE's guidance on [protecting children from radicalisation](#).

It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects the [Education Act 2011](#), which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

The policy also takes into account the National Curriculum computing programmes of study.

3. Roles and responsibilities

3.1 The governing body

The governing body has overall responsibility for monitoring this policy and holding the headteacher to account for its implementation.

The governing body will make sure all staff undergo online safety training as part of child protection and safeguarding training, and ensure staff understand their expectations, roles and responsibilities around filtering and monitoring.

The governing body will also make sure all staff receive regular online safety updates (via email, e-bulletins and staff meetings), as required and at least annually, to ensure they are continually provided with the relevant skills and knowledge to effectively safeguard children.

The governing body will co-ordinate regular meetings with appropriate staff to discuss online safety and requirements for training, and monitor online safety logs as provided by the designated safeguarding lead (DSL).

The governing body will make sure that the school teaches pupils how to keep themselves and others safe, including online.

The governing body will make sure that the school has appropriate filtering and monitoring systems in place on school devices and school networks, and will regularly review their effectiveness. The body will review the [DfE's filtering and monitoring standards](#), and discuss with IT staff and service providers what needs to be done to support the school in meeting the standards, which include:

Identifying and assigning roles and responsibilities to manage filtering and monitoring systems

Reviewing filtering and monitoring provisions at least annually

Blocking harmful and inappropriate content without unreasonably impacting teaching and learning

Having effective monitoring strategies in place that meet the school's safeguarding needs

All governors will:

Make sure they have read and understand this policy

Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet (appendix 3)

Make sure that online safety is a running and interrelated theme when devising and implementing the whole-school or college approach to safeguarding and related policies and/or procedures

Make sure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with special educational needs and/or disabilities (SEND). This is because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

3.2 The headteacher

The headteacher is responsible for making sure that staff understand this policy, and that it is being implemented consistently throughout the school.

3.3 The designated safeguarding lead (DSL)

Details of the school's designated safeguarding lead (DSL) back up DSLs are set out in our child protection and safeguarding policy, as well as relevant job descriptions.

The DSL takes lead responsibility for online safety in school, in particular:

Supporting the headteacher in making sure that staff understand this policy and that it is being implemented consistently throughout the school

Working with the headteacher and governing body to review this policy annually and make sure the procedures and implementation are updated and reviewed regularly

Working with the ICT manager to make sure the appropriate systems and processes are in place

Working with the headteacher, ICT manager and other staff, as necessary, to address any online safety issues or incidents

Managing all online safety issues and incidents in line with the school's child protection policy

Responding to safeguarding concerns identified by filtering and monitoring

Making sure that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy

Making sure that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school behaviour policy

Updating and delivering staff training on online safety (appendix 4 contains a self-audit for staff on online safety training needs)

Liaising with other agencies and/or external services if necessary

Providing regular safeguarding and child protection updates, including online safety, to all staff, at least annually, in order to continue to provide them with relevant skills and knowledge to safeguard effectively

3.4 The ICT manager and EDS technician through LCC

The ICT manager and EDS technician is responsible for:

Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems on school devices and school networks, which are reviewed and updated at least annually to assess effectiveness and make sure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material

Taking the lead on understanding the filtering and monitoring systems and processes in place on school devices and school networks

Making sure that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly

Conducting a full security check and monitoring the school's ICT systems on a monthly basis

Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files

Making sure that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy

Making sure that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy

Providing governors with assurance that filtering and monitoring systems are working effectively and reviewed regularly

3.5 All staff and volunteers

All staff, including contractors and agency staff, and volunteers are responsible for:

Maintaining an understanding of this policy

Implementing this policy consistently

Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet (appendix 3), and making sure that pupils follow the school's terms on acceptable use (appendices 1 and 2)

Knowing that the DSL, ICT manager and headteacher are responsible for the filtering and monitoring systems and processes, and being aware of how to report any incidents of those systems or processes failing by reporting concerns or incidents to ICT manager immediately

Following the correct procedures by emailing EDS if they need to bypass the filtering and monitoring systems for educational purposes

Working with the DSL to make sure that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy

Making sure that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy

Responding appropriately to all reports and concerns about sexual violence and/or harassment, both online and offline, and maintaining an attitude of 'it could happen here'

3.6 Parents/carers

Parents/carers are expected to:

Notify a member of staff or the headteacher of any concerns or queries regarding this policy

Make sure that their child has read, understood and agreed to the terms on acceptable use of the school's ICT systems and internet (appendices 1 and 2)

Parents/carers can seek further guidance on keeping children safe online from the following organisations and websites:

What are the issues? – [UK Safer Internet Centre](#)

Help and advice for parents/carers – [Childnet](#)

Parents and carers resource sheet – [Childnet](#)

3.7 Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use (appendix 3).

4. Educating pupils about online safety

Pupils will be taught about online safety as part of the curriculum.

The text below is taken from the [National Curriculum computing programmes of study](#) and the government's [guidance on relationships education, relationships and sex education \(RSE\) and health education \(for teaching until 31 August 2026\)](#).

All schools have to teach:

[Relationships education and health education](#) in primary schools

[Relationships and sex education and health education](#) in secondary schools

In KS3, pupils will be taught to:

Understand a range of ways to use technology safely, respectfully, responsibly and securely, including protecting their online identity and privacy

Recognise inappropriate content, contact and conduct, and know how to report concerns

Pupils in KS4 will be taught:

To understand how changes in technology affect safety, including new ways to protect their online privacy and identity

How to report a range of concerns

By the end of secondary school, pupils will know:

Their rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online

About online risks, including that any material someone provides to another has the potential to be shared online and the difficulty of removing potentially compromising material placed online

Not to provide material to others that they would not want shared further and not to share personal material that is sent to them

What to do and where to get support to report material or manage issues online

The impact of viewing harmful content

That specifically sexually explicit material (e.g. pornography) presents a distorted picture of sexual behaviours, can damage the way people see themselves in relation to others, and negatively affect how they behave towards sexual partners

That sharing and viewing indecent images of children (including those created by children) is a criminal offence that carries severe penalties including jail

How information and data is generated, collected, shared and used online

How to identify harmful behaviours online (including bullying, abuse or harassment) and how to report, or find support, if they have been affected by those behaviours

How people can actively communicate and recognise consent from others, including sexual consent, and how and when consent can be withdrawn (in all contexts, including online)

The similarities and differences between the online world and the physical world, including: the impact of unhealthy or obsessive comparison with others online (including through setting unrealistic expectations for body image), how people may curate a specific image of their life online, over-reliance on online relationships including social media, the risks related to online gambling including the accumulation of debt, how advertising and information is targeted at them and how to be a discerning consumer of information online

The safe use of social media and the internet will also be covered in other subjects where relevant.

Where necessary, teaching about safeguarding, including online safety, will be adapted for vulnerable children, victims of abuse and some pupils with SEND.

5. Educating parents/carers about online safety

The school will raise parents/carers' awareness of internet safety in letters or other communications home, and in information via our website. This policy will also be shared with parents/carers.

The school will let parents/carers know:

What systems the school uses to filter and monitor online use

If parents/carers have any queries or concerns in relation to online safety, these should be raised in the first instance with the headteacher and/or the DSL.

Concerns or queries about this policy can be raised with any member of staff or the headteacher.

6. Cyber-bullying

6.1 Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of 1 person or group by another person or group, where the relationship involves an imbalance of power. (See also the school behaviour policy.)

6.2 Preventing and addressing cyber-bullying

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and encourage them to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. Class teachers of PGW and computing will discuss cyber-bullying with their classes.

All staff, governors and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training (see section 11 for more detail).

The school also shares information/leaflets on cyber-bullying with parents/carers during keyworker calls so they are aware of the signs, how to report it and how they can support children who may be affected.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the school behaviour policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSL will report the incident and provide the relevant material to the police as soon as is reasonably practicable, if they have reasonable grounds to suspect that possessing that material is illegal. They will also work with external services if it is deemed necessary to do so.

6.3 Examining electronic devices

The headteacher, and any member of staff authorised to do so by the headteacher, can carry out a search and confiscate any electronic device that they have reasonable grounds for suspecting:

Poses a risk to staff or pupils, and/or

Is identified in the school rules as a banned item for which a search can be carried out, and/or

Is evidence in relation to an offence

Before a search, if the authorised staff member is satisfied that they have reasonable grounds for suspecting any of the above, they will also:

Make an assessment of how urgent the search is, and consider the risk to other pupils and staff. If the search is not urgent, they will seek advice from the headteacher and DSL.

Explain to the pupil why they are being searched, and how the search will happen; and give them the opportunity to ask questions about it

Seek the pupil's co-operation

Authorised staff members may examine, and in exceptional circumstances erase, any data or files on an electronic device that they have confiscated where they believe there is a 'good reason' to do so.

When deciding whether there is a 'good reason' to examine data or files on an electronic device, the staff member should reasonably suspect that the device has, or could be used to:

Cause harm, and/or

Undermine the safe environment of the school or disrupt teaching, and/or

Commit an offence

If inappropriate material is found on the device, it is up to the headteacher and DSL to decide on a suitable response. If there are images, data or files on the device that staff reasonably suspect are likely to put a person at risk, they will first consider the appropriate safeguarding response.

When deciding whether there is a good reason to erase data or files from a device, staff members will consider if the material may constitute evidence relating to a suspected offence. In these instances, they will not delete the material, and the device will be handed to the police as soon as reasonably practicable. If the material is not suspected to be evidence in relation to an offence, staff members may delete it if:

They reasonably suspect that its continued existence is likely to cause harm to any person, and/or

The pupil and/or the parent/carer refuses to delete the material themselves

If a staff member suspects a device may contain an indecent image of a child (also known as a nude or semi-nude image), they will:

Not view the image

Confiscate the device and report the incident to the DSL immediately, who will decide what to do next. The DSL will make the decision in line with the DfE's latest guidance on [screening, searching and confiscation](#) and the UK Council for Internet Safety (UKCIS) guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Any searching of pupils will be carried out in line with:

The DfE's latest guidance on [searching, screening and confiscation](#)

UKCIS guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Our behaviour policy

Any complaints about searching for or deleting inappropriate images or files on pupils' electronic devices will be dealt with through the school complaints procedure.

6.4 Artificial intelligence (AI)

Generative AI tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Gemini.

Moorbrook School recognises that AI has many uses to help pupils learn, but may also have the potential to be used to bully others. For example, in the form of 'deepfakes', where AI is used to create images, audio or video hoaxes that look real. This includes deepfake pornography: pornographic content created using AI to include someone's likeness.

Moorbrook School will treat any use of AI to bully pupils very seriously, in line with our behaviour support policy.

Staff should be aware of the risks of using AI tools while they are still being developed and should carry out a risk assessment where new AI tools are being used by Moorbrook School, and where existing AI tools are used in cases which may pose a risk to all individuals that may be affected by them, including, but not limited to, pupils and staff.

Any use of artificial intelligence should be carried out in accordance with our AI usage policy.

7. Acceptable use of the internet in school

All pupils, parents/carers, staff, volunteers and governors are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet (appendices 1 to 3). Visitors will be expected to read and agree to the school's terms on acceptable use, if relevant.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors (where relevant) to ensure they comply with the above and restrict access through filtering systems where appropriate.

More information is set out in the acceptable use agreements in appendices 1 to 3.

8. Pupils using mobile devices in school

Pupils may bring mobile devices into school, for those in years 7 to 10 they must hand them in when they arrive in school.

Year 11 pupil may keep their phones on them but must not use them in lesson time

Any use of mobile devices in school by pupils must be in line with the acceptable use agreement (see appendices 1 and 2).

Any breach of the acceptable use agreement by a pupil may trigger disciplinary action in line with the school behaviour policy, which may result in the confiscation of their device or the removal of their privilege to keep their phone with them.

9. Staff using work devices outside school

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

Keeping the device password-protected – strong passwords can be made up of [3 random words](#), in combination with numbers and special characters if required, or generated by a password manager

Ensuring their hard drive is encrypted – this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device

Making sure the device locks if left inactive for a period of time

Not sharing the device among family or friends

Installing anti-virus and anti-spyware software

Keeping operating systems up to date by promptly installing the latest updates

Staff members must not use the device in any way that would violate the school's terms of acceptable use, as set out in appendix 3.

Work devices must be used solely for work activities.

If staff have any concerns over the security of their device, they must seek advice from the ICT technician

10. How the school will respond to issues of misuse

Where a pupil misuses the school's ICT systems or internet, we will follow the procedures set out in our behaviour and acceptable use policies. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a staff member misuses the school's ICT systems or the internet, or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the staff disciplinary procedures / staff code of conduct. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents that involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

11. Training

11.1 Staff, governors and volunteers

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues, including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings).

By way of this training, all staff will be made aware that:

Technology is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse

Children can abuse their peers online through:

Abusive, threatening, harassing and misogynistic messages

Non-consensual sharing of indecent nude and semi-nude images and/or videos, especially around chat groups

Sharing of abusive images and pornography, to those who don't want to receive such content

Physical abuse, sexual violence and initiation/hazing type violence can all contain an online element

Training will also help staff:

Develop better awareness to assist in spotting the signs and symptoms of online abuse

Develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh up the risks

Develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The DSL will undertake child protection and safeguarding training, which will include online safety, at least every 2 years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy.

11.2 Pupils

All pupils will receive age-appropriate training on safe internet use, including:

Methods that hackers use to trick people into disclosing personal information

Password security

Social engineering

The risks of removable storage devices (e.g. USBs)

Multi-factor authentication

How to report a cyber incident or attack

How to report a personal data breach

Pupils will also receive age-appropriate training on safeguarding issues such as cyberbullying and the risks of online radicalisation.

12. Monitoring arrangements

The DSL logs behaviour and safeguarding issues related to online safety. An incident report log can be found in appendix 5.

This policy will be reviewed every year by the Deputy Head. At every review, the policy will be shared with the governing body. The review (such as the one available [here](#)) will be supported by an annual risk assessment that considers and reflects the risks pupils face online. This is important because technology, and the risks and harms related to it, evolve and change rapidly.

13. Links with other policies

This online safety policy is linked to our:

Child protection and safeguarding policy

Behaviour policy

Staff disciplinary procedures

Data protection policy and privacy notices

Complaints procedure

ICT and internet acceptable use policy

Appendix 1: KS2, KS3 and KS4 acceptable use agreement (pupils and parents/carers)

**ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET:
AGREEMENT FOR PUPILS AND PARENTS/CARERS**

Name of pupil:

I will read and follow the rules in the acceptable use agreement policy.

When I use the school's ICT systems (like computers) and get onto the internet in school I will:

Always use the school's ICT systems and the internet responsibly and for educational purposes only

Only use them when a teacher is present, or with a teacher's permission

Keep my usernames and passwords safe and not share these with others

Keep my private information safe at all times and not give my name, address or telephone number to anyone without the permission of my teacher or parent/carer

Tell a teacher (or sensible adult) immediately if I find any material that might upset, distress or harm me or others

Always log off or shut down a computer when I've finished working on it

I will not:

Access any inappropriate websites including: social networking sites, chat rooms and gaming sites unless my teacher has expressly allowed this as part of a learning activity

Open any attachments in emails, or follow any links in emails, without first checking with a teacher

Use any inappropriate language when communicating online, including in emails

Create, link to or post any material that is pornographic, offensive, obscene or otherwise inappropriate

Log in to the school's network using someone else's details

Arrange to meet anyone offline without first consulting my parent/carer, or without adult supervision

If I bring a personal mobile phone or other personal electronic device into school:

I will not use it during lessons, tutor group time, clubs or other activities organised by the school, without a teacher's permission

I will use it responsibly, and will not access any inappropriate websites or other inappropriate material or use inappropriate language when communicating online

I agree that the school will monitor the websites I visit and that there will be consequences if I don't follow the rules.

Signed (pupil):

Date:

Parent/carer's agreement: I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet, and for using personal electronic devices in school, and will make sure my child understands these.

Signed (parent/carer):

Date:

**ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET:
AGREEMENT FOR STAFF, GOVERNORS, VOLUNTEERS AND VISITORS**

Name of staff member/governor/volunteer/visitor:

When using the school's ICT systems and accessing the internet in school, or outside school on a work device (if applicable), I will not:

Access, or attempt to access inappropriate material, including but not limited to material of a violent, criminal or pornographic nature (or create, share, link to or send such material)

Use them in any way that could harm the school's reputation

Access social networking sites or chat rooms

Use any improper language when communicating online, including in emails or other messaging services

Install any unauthorised software, or connect unauthorised hardware or devices to the school's network

Share my password with others or log in to the school's network using someone else's details

Take photographs of pupils without checking with teachers first

Share confidential information about the school, its pupils or staff, or other members of the community

Access, modify or share data I'm not authorised to access, modify or share

Promote private businesses, unless that business is directly related to the school

I will only use the school's ICT systems and access the internet in school, or outside school on a work device, for educational purposes or for the purpose of fulfilling the duties of my role.

I agree that the school will monitor the websites I visit and my use of the school's ICT facilities and systems.

I will take all reasonable steps to ensure that work devices are secure and password-protected when using them outside school, and keep all data securely stored in accordance with this policy and the school's data protection policy.

I will let the designated safeguarding lead (DSL) and ICT manager know if a pupil informs me they have found any material that might upset, distress or harm them or others, and will also do so if I encounter any such material.

I will always use the school's ICT systems and internet responsibly, and ensure that pupils in my care do so too.

Signed (staff member/governor/volunteer/visitor):

Date:

Appendix 3: online safety training needs – self-audit for staff

ONLINE SAFETY TRAINING NEEDS AUDIT	
Name of staff member/volunteer:	Date:
Question	Yes/No (add comments if necessary)
Do you know the name of the person who has lead responsibility for online safety in school?	
Are you aware of the ways pupils can abuse their peers online?	
Do you know what you must do if a pupil approaches you with a concern or issue?	
Are you familiar with the school's acceptable use agreement for staff, volunteers, governors and visitors?	
Are you familiar with the school's acceptable use agreement for pupils and parents/carers?	
Are you familiar with the filtering and monitoring systems on the school's devices and networks?	
Do you understand your role and responsibilities in relation to filtering and monitoring?	
Do you regularly change your password for accessing the school's ICT systems?	
Are you familiar with the school's approach to tackling cyber-bullying?	
Are there any areas of online safety in which you would like training/further training?	

Appendix 4: online safety incident report log

ONLINE SAFETY INCIDENT LOG				
Date	Where the incident took place	Description of the incident	Action taken	Name and signature of staff member recording the incident
